

telePendant™

Remote Radio Control

Lighten your load!

Durability, ergonomics, maximum functionality and value are built right into every *telePendant*™. The lightweight *telePendant*™ system will meet or exceed your expectations in radio control!

- Rugged and chemically resistant transmitter case withstands shock and abusive environments.
- Traditional pendant style pushbutton station switches, rated for a million plus operations, available in two- and three-speed designs!
- Ergonomic, lightweight transmitter (50% lighter than its predecessor).
- All Telemotive radio control products are designed to minimize power consumption, providing one of the longest life batteries in the industry today.
- Electronically synthesized frequency allows for 31 operating channels...no crystals to break.
- Time Multiple Shared feature—four systems can share the same channel without interference.
- 4-in-1 transmitter design supports multiple cranes via a password protected access code.
- Compatible with most existing Telemotive Model 10K systems.
- Flexibility in programming means you can customize output configurations, frequency channels, and security code via a PDA.
- Universal transmitter design eliminates the cost and hassle of tracking and maintaining a fleet of spare transmitters.

YOUR ONE-STOP-SOURCE FOR MATERIAL HANDLING CONTROL SOLUTIONS

Product Features

telePendant™ Radio Remote Control

FLEXIBILITY YOU WILL ONLY FIND FROM TELEMOTIVE

- Available in up to 3 motions with 6 auxiliary functions, or 5 motions with 4 auxiliary functions using A & B select.
- Two- or three-speed models available.
- Backward compatible to most older 10K Telemotive receivers.
- Stores four complete system configurations eliminating the cost and hassle of tracking and maintaining a fleet of spares.
- Palm Pilot® programming is quick and easy.
- Electronically synthesized frequency allows for 31 operating channels...no crystals to break.
- telePendant™ can be custom labeled.
- Three battery options available:
 - AA batteries (standard)
 - Rechargeable lithium
 - Disposable lithium

Ergonomic cavity back shape fits your hand like a glove.

MOST DURABLE TRANSMITTER ON THE MARKET

- Durable, lightweight, specially blended polymer case with stands shocks and is chemically resistant.
- Simple-to-operate, maintenance-free, "Pendant Style" push button switches save you money and are tested to in excess of one million operations.

Fits comfortably in your hand.

RECEIVER DELIVERS OPTIONS YOU WANT

- Receivers available with various numbers of outputs.
- Radio ready transfer switch connections reduce installation time.
- Optional pre-wired "pigtail" available so unit can be installed and wired quickly.
- Receiver design can be configured to be operated with up to eight transmitters.
- Internal master relay disable switch allows you to safely test the controls "live" without moving the crane.
- Fusing and suppression on all power and control lines—built for the harshest applications.

- Compact receiver design installs easily in the most confined spaces.
- Controller and diagnostic LEDs allow you to perform diagnostics without opening the receiver door.
- Available in 12 to 24 outputs.
- Synthesized RF...up to 31 operating channels.
- Custom output mapping via a Palm® Pilot PDA.
